

Over the past 20 years, Commonwealth FX has helped over 10,000 U.S. businesses reduce the cost of their international wires and manage FX risk. As we integrate with the moneycorp Group, the combination of moneycorp's cutting-edge technology and Commonwealth's long history of success in servicing American firms' global payment needs will bring clients a number of important benefits.

This includes a state-of-the-art international payment platform, a wider array of services, greater liquidity and a host of other increased payment efficiencies. We share the same ethos and deep commitment to providing exceptional customer service.

What is important to you is important to us.

- ✦ We work with you to determine the best strategies for your business and help you move money around the world in a cost-effective, transparent and secure way.
- ✦ Manage your foreign currency exposure and protect your bottom line with personalized risk management strategies and a range of products including, spot, forwards, market orders and mass payments.
- ✦ Your security is our priority. Your funds are kept separate from our business account and are only used for your transactions.

Over the next few months you'll see the transitioning of our brand, if you have any inquiries please do not hesitate to speak to the team.
